

MANAGING YOUR SYLLABI JUST GOT WAY EASIER

Simple Syllabus is a centralized, template-driven platform that enables instructors to quickly personalize and publish interactive syllabi—saving your entire campus time, budget, and frustration. Our application's unique approach pulls together established institutional data such as policies, learning objectives, and course section content so your staff doesn't have to.

How It Works

The Simple Syllabus dashboard is unique to each user and can be completely embedded within your LMS for ease of use. Syllabi needed for the next term are automatically pre-populated with required institutional data and previously created content for that class.

Once published, the syllabus is available to students in web, mobile, and print-friendly formats. All syllabi are archived and can be easily retrieved within the system.

Major Features

Dynamic Templates

Technology does the work for you

Personalized Dashboard

Organization through automation

Audit Tools

Instantly know the who, what, and how

Central Repository

Everything you need in one place

Student Portal

Preparing for class has never been easier

It's All About You

Faculty

Save time and eliminate redundant tasks. Simple Syllabus automatically generates major components of your syllabi such as policy, schedule, and more—then you personalize the rest.

Administrators

Ensure consistency of critical information through templates. Establish deadlines and automate governance activities. Quickly retrieve necessary documentation for accreditation and regulatory purposes with reports.

Students

Content automatically optimized for web, mobile, and print means students can access anywhere at any time. Aggregated material list saves students time and money.

DELIVER QUALITY COURSES AT SCALE

Simple Prep is a centralized course readiness solution designed to streamline course setup, review, and validation. Automate tasks, ensure quality and consistency, and free up instructional designers to focus on what matters most: improving student learning outcomes.

How It Works

Simple Prep streamlines course prep and review by automating key tasks and centralizing information. Create custom plans, validate content against quality standards, and generate reports to improve course delivery.

Seamless integrations with your LMS, SIS, and other platforms provide a comprehensive view of course readiness, ensuring alignment with institutional goals, accreditation standards, and regulations.

Major Features

Configurable Plans

Create targeted plans for quality courses

Seamlessly Integrated

Pull data from your LMS, SIS, syllabi, and more

Automated Validation

Optimize reviews with automated validation

Real-time Updates

Real-time data keeps your dashboard up-to-date

Centralized Review

Analyze all course data in one place

It's All About You

Instructional Designers

Simple Prep enables instructional designers to efficiently create and automate course readiness plans, ensuring alignment with institutional standards. Streamline the development and implementation of course review with ease.

Academic Affairs & Leadership

Provide administrators and academic leaders a centralized view of course readiness across all departments and programs, enabling data-driven decisions.

Instructors and Academics

Focus on teaching and student engagement while Simple Prep automates tedious course setup tasks, ensuring efficiency and compliance.
