

INTEGRATED BLACKBOARD SOLUTIONS DRIVING QUALITY AND CONSISTENCY

Trusted Anthology Partner Seamless Blackboard Solutions

As an Anthology Partner, Simple Higher Ed collaborates closely with the creators of Blackboard to deliver powerful, integrated solutions designed to enhance the platform you trust. Our partnership is built on a shared commitment: empowering institutions to achieve higher standards of quality and consistency across their digital learning environment.

This collaboration ensures our tools, Simple Syllabus and Simple Prep, integrate intelligently with Blackboard, leveraging its data and architecture to streamline critical academic processes. Choosing an official Anthology Partner means selecting solutions architected for reliability and seamless operation within the Blackboard ecosystem.

Learn why other Blackboard users have implemented our integrated solutions.

Why Our Partnership Drives Quality & Consistency

Deep integration: Simple Syllabus embeds naturally via LTI, while Simple Prep utilizes robust APIs to connect with live Blackboard data, ensuring consistency and reducing friction.

Data accuracy: By directly utilizing Blackboard data for course details, enrollments, and activities, we eliminate manual entry errors and ensure information is consistently up-to-date.

Standardized processes: Our tools facilitate the implementation of institutional standards. Template-driven syllabus creation and automated course validation rules ensure consistency.

Focused innovation: Working alongside Anthology allows us to focus on developing solutions that enhance quality and effectiveness without adding unnecessary complexity.

Ensuring Up-to-Date and Consistent Syllabi

▶ Template-driven consistency

Implement institution-wide templates that automatically populate required policies and information, ensuring every syllabus meets established standards.

▶ Accurate, synced content

Dynamically sync your syllabus with Blackboard data, automatically updating assignments, dates, and activities to ensure accuracy and save faculty time.

▶ Seamless LTI integration

Embeds directly into the Blackboard course navigation, providing a consistent, accessible experience for both faculty and students without needing to learn a separate system.

▶ Centralized quality control

Manage and archive all syllabi in one place. Easily retrieve documentation for accreditation and review, ensuring consistent adherence to requirements.

Validating Course Quality Through Blackboard Data

▶ Data-powered validation

Automatically validate Blackboard courses against standards, accessibility, and accreditation requirements using live data to identify inconsistencies.

▶ Consistent quality standards

Define and apply course readiness plans across departments or programs, ensuring a consistent level of quality and preparedness for all courses.

▶ Real-time data sync

Robust API connections keep course information synchronized with Blackboard, ensuring reviews and validations are always based on the most current data.

▶ Streamline consistency

A centralized dashboard using Blackboard data for efficient, transparent course reviews, helping instructional designers and administrators maintain consistency.

As an Official Anthology partner, Simple Higher Ed simplifies academic processes with integrated syllabus and course readiness tools for Blackboard.
