

INTEGRATED CANVAS SOLUTIONS DRIVING QUALITY AND CONSISTENCY

Trusted Instructure Partner Seamless Canvas Solutions

As an Instructure Partner, Simple Higher Ed collaborates closely with the creators of Canvas to deliver powerful, integrated solutions designed to enhance the platform you trust. Our partnership is built on a shared commitment: empowering institutions to achieve higher standards of quality and consistency across their digital learning environment.

This collaboration ensures our tools, Simple Syllabus and Simple Prep, integrate intelligently with Canvas, leveraging its data and architecture to streamline critical academic processes. Choosing an official Instructure Partner means selecting solutions architected for reliability and seamless operation within the Canvas ecosystem.

Learn why hundreds of Canvas users have implemented our integrated solutions.

Why Our Partnership Drives Quality & Consistency

Deep integration: Simple Syllabus embeds naturally via LTI, while Simple Prep utilizes robust APIs to connect with live Canvas data, ensuring consistency and reducing friction.

Data accuracy: By directly utilizing Canvas data for course details, enrollments, and activities, we eliminate manual entry errors and ensure information is consistently up-to-date.

Standardized processes: Our tools facilitate the implementation of institutional standards. Template-driven syllabus creation and automated course validation rules ensure consistency.

Focused innovation: Working alongside Instructure allows us to focus on developing solutions that enhance quality and effectiveness without adding unnecessary complexity.

Ensuring Up-to-Date and Consistent Syllabi

▶ Template-driven consistency

Implement institution-wide templates that automatically populate required policies and information, ensuring every syllabus meets established standards.

▶ Accurate, synced content

Dynamically sync your syllabus with Canvas data, automatically updating assignments, dates, and activities to ensure accuracy and save faculty time.

▶ Seamless LTI integration

Embeds directly into the Canvas course navigation, providing a consistent, accessible experience for both faculty and students without needing to learn a separate system.

▶ Centralized quality control

Manage and archive all syllabi in one place. Easily retrieve documentation for accreditation and review, ensuring consistent adherence to requirements.

Validating Course Quality Through Canvas Data

▶ Data-powered validation

Automatically validate Canvas courses against standards, accessibility, and accreditation requirements using live data to identify inconsistencies.

▶ Consistent quality standards

Define and apply course readiness plans across departments or programs, ensuring a consistent level of quality and preparedness for all courses.

▶ Real-time data sync

Robust API connections keep course information synchronized with Canvas, ensuring reviews and validations are always based on the most current data.

▶ Streamline consistency

A centralized dashboard using Canvas data for efficient, transparent course reviews, helping instructional designers and administrators maintain consistency.

As an Official Instructure partner, Simple Higher Ed simplifies academic processes with integrated syllabus and course readiness tools for Canvas.
